To Whom It May Concern;

I am writing to recommend the services of AC Elevator Company Ltd. They modernized the two elevators for MTCC 935 located at 456 College Street in a timely and cost-effective manner. They far exceeded the corporation's expectations with their work ethic and communication with the superintendent and management. The Board and residents were very happy with the final results. They are always available when I have any questions or concerns.

I have been in the condominium management business for over 15 years and have gone through this type of project before, and I'm happy to highly recommend the services of AC Elevator. If you have any questions, feel free to contact me at 905-763-0677 ext. 25.

Thank you

Yours truly,

*L Snider*
